

Adult Basic Education

for College & Career

Automated Industrial Technology (AIT) IBEST Certificate Program

- » Are you interested in a career in Automated Industrial Technology (Mechatronics)?
- » Do you need to strengthen your reading, writing or math skills, or earn your High School Equivalency diploma?

The Automated Industrial Technology IBEST Certificate is for you!

The AIT Integrated Basic Education and Skills Training (IBEST) certificate program provides students with the technical skills desired by the industry while, at the same time, improving the skills needed for academic and career success.

What can I do with an Automated Industrial Technology Certificate?

This program will prepare you for a career designing and maintaining the complex mechanical and electrical control systems that keep automated manufacturing lines up and running. You will train on robotics equipment and controllers that simulate machines in a real-world factory.

This hands-on training is designed to prepare students for the National Institute of Metalworking Skills (NIMS) certification exams.

Read about the program costs, student educational debt, earnings and completion rates at: pima.edu/industrialtech.
